

Carbon Reduction Commitment

We are dedicated to sustainability and recognize the importance of taking proactive measures to protect the environment.

We are committed to reducing our absolute Scope 1 and Scope 2 emissions by a minimum of 21% by 2030 with a baseline year of 2025, in line with science. We will do this through process optimization and by acquiring renewable energy, among other efforts.

Beyond commitments we recognize the importance of transparent reporting and accountability. Therefore, we will continue to regularly report our progress on our emissions reduction efforts to our stakeholders, ensuring transparency and demonstrating our commitment to sustainability.

Sincerely,

MIKROTECHNA PRAHA a.s.

Year	Scope 1 Emissions (MTCO ₂ e)	Scope 2 Emissions (MTCO ₂ e)	Total Emissions (MTCO ₂ e)	Reduction from Baseline
2025 (projected*)	83	163	247	--

*2025 emissions will be updated in 2026 with full data from the previous year.
